Issued: 6/15/2004

Effective: 7/3/2004

**(A) TERMS AND CONDITIONS OF PAYMENT**

Use of Port facilities or service is conditioned upon satisfactory assurance of the Port's applicable charges being paid when due. All charges are due and payable as they accrue or on completion of service or use. Any monetary claims made against the Port of Longview for any reason may not be used in lieu of payment of such charges.

The vessel, its owners and charterer jointly and severally and the berth assignee guarantee are liable for the payment of all charges whether or not collected by such vessel, its owner, charterer, agent or the berth assignee. The use of a wharf or wharves by the vessel, its owner or charterer or the acceptance of a berth assignment by an assignee constitutes acceptance and acknowledgment of the liability of such charges.

Any invoice returned to the Port of Longview for billing to another party will be assessed a handling charge of \$25.00 per invoice to the party making the request.

The Port may require payment of charges in advance as follows:

1. by vessel, its owners/or agents before vessel is assigned a berth and commences its loading or unloading operations,
2. by freight owner, shipper, or consignee before freight leaves the custody of the terminal for inbound shipments and before freight is delivered to the terminal for outbound shipments, and/or
3. for all charges on perishable freight, on freight of doubtful value, and household goods.

Payment terms are cash unless the Port customer, prior to the use of Port facilities or services, has established credit worthiness or has posted adequate security acceptable to the Port and has hereby been relieved of cash payment requirements by the Port, as set forth in Supplement to Application for Vessel Berth Reservation as published by the Port, appearing as Item 110.

**(B) DELINQUENT CHARGES ON DELINQUENT INVOICES**

Invoices covering charges in this Tariff, revisions and/or supplements thereto, as issued by the Port are due and payable upon presentation. Delinquent accounts on which collection efforts require use of legal counsel and/or litigation shall be assessed interest charges, computed at a named prime rate plus two percent (2%) to establish a per annum charge, after the first thirty (30) days from the day the invoice is first issued. All expenses incurred by the prevailing party shall be assessed to, and payable by, the non-prevailing party. Such expenses shall include, but are not limited to reasonable attorney's fees and all cost of suit.

**(D) WHARFAGE, CAR LOADING/UNLOADING, MISCELLANEOUS CHARGES**

The use of the terminal by a vessel, its owners, or operators, shall be deemed as acceptance and acknowledgment of this guarantee. A vessel, its owners, or operators, when permitted to perform its own receiving and delivering, will be held responsible for collection and payment of any charge involved in respect to such traffic and accruing to the terminal.

**(E) SERVICE AND FACILITIES CHARGE**

Where the contract of affreightment establishes the responsibility as between the parties thereto for payment of service and facilities charges named in this Tariff, revisions and/or supplements thereto, such charges shall be borne by whomever shall be determined to be responsible under the contract of affreightment, but the full amount of such charges shall be billed to and paid for by the vessel, its owners, or operators, to the Port of Longview. Allocation or adjustment of these charges between vessel and freight shall be made solely by the parties to the contract of affreightment in accordance with the terms of such contract.

Section 2 - Dockage

**ITEM 200** Dockage Conditions and Definitions

Issued: 8/12/2005

Effective: 8/12/2005

(A) DEFINITION

The charge assessed against the ocean vessel, its owners, or operators for berthing at a wharf, piling structure, pier, bulkhead structure, or bank, or for mooring to a vessel so berthed.

(B) BERTH ASSIGNMENTS

Berth assignments will be issued at the sole discretion of the Port of Longview to the owners, agents, or operators of vessels for use of a specific berth by a specific vessel.

See Application for Berth Reservation, Item 105.

(C) RESERVATIONS REQUIRED FOR BERTHING VESSEL

The Port of Longview requires that a berth application be submitted prior to the vessel's arrival at the Port and subject to the following four provisions.

1. Berth application must be filed as far in advance as possible or at least seven (7) days prior to vessel arrival.
2. The Port reserves the right to request adequate security, acceptable to the Port, in an amount equal to 125% of the applicable estimated port charge, and refuses berthing until credit worthiness has been accepted or the deposit requirement has been met to the Port's satisfaction.
3. Unless otherwise provided by a contractual agreement approved by the Port of Longview Commission, vessel berthing assignments will be at the sole discretion of the Port. The vessel berthing priority will be established by the vessel's official arrival time at the Columbia River Pilot Station (light vessel). The oldest vessel will have first right to use a specific berth, provided the freight operation can commence on arrival at the berth.
4. When congestion or other commitments make it necessary for a vessel to complete and clear its berth, the vessel on berth will be requested to work all available overtime shifts at its own expense until loading or discharging has been completed, after which it will promptly vacate the berth. Any vessel refusing to work the necessary overtime shifts shall vacate the berth upon written order from the Port. When a vessel loses its right to a berth by refusing to work overtime, such vessel will forfeit its turn on the berth and will remain at anchor until the next available berth.

**Section 2 - Dockage****(D) OCEAN GOING BARGES**

Dockage will be assessed at 75% of full Port dockage rates and will be charged on an hourly basis. To calculate this hourly rate take 75% of the full dockage tariff rate based upon the length of the barge, and divide by 24 hours. Partial hours will be rounded up to the next hour. Dockage will begin when the barge ties up to the dock and ends at let go of lines. Lay berth status is available subject to the rules in the tariff per item 200 (J), and requires prior written permission of the Port. No minimum time requirement.

**(E) BASIS FOR COMPUTING CHARGES**

Dockage charges shall be based upon the vessel's length-over-all as published in Lloyd's Register of Ships. Length-over-all shall be construed to mean the linear distance expressed in meters from the most forward point of the stem of the vessel to the aftermost part of the stern, measured parallel to the base line of the vessel. If the length-over-all of the vessel does not appear in Lloyd's Register, the Port may obtain the length-over-all from the vessel's register, or measure the vessel.

**(F) DOCKAGE PERIOD - CALCULATED**

The period of time upon which dockage will be assessed shall commence when the first line is made fast to the wharf, pier, seawall, or when a vessel is made fast to a vessel so berthed, or when a vessel comes within or moors within a slip, and shall continue until such vessel is completely free from and has vacated such berth or slip.

After the first period of twenty-four (24) hours, any period of berth occupancy of twelve (12) hours or less will be billed at one-half ( $\frac{1}{2}$ ) of that day's rate. An additional dockage period shall not be assessed when a vessel departs from the Port within sixty (60) minutes of a subsequent dockage period after the first full period.

**(G) CHARGES ON VESSEL SHIFTING**

When a vessel is shifted directly from one berth to another berth operated by the Port, the total time at such berths will be considered together in computing the dockage charges.

**(H) VESSELS REQUIRED TO CHANGE BERTHS**

Berthing of vessels not engaged in loading or unloading freight shall be at the discretion of the Port of Longview and then only with the express understanding that vessels shall move their position from place to place at wharf or leave wharf at the discretion of the Port when berth is required for vessels with or for cargo. Any

**Section 2 - Dockage**

vessel, upon notice to move, which refuses or fails to move, may be shifted by tug or otherwise by wharf agent and any expenses and damages to vessel or others vessels during such removal shall be charged to vessel so moved.

**(I) DOCKAGE EXEMPTIONS**

Dockage charges will not be assessed against the following vessels:

1. combat, combat auxiliary, or training vessels of the United States of America or any other nations,
2. domestic river barge involved in the movement of freight within the Columbia and Snake River systems, and
3. vessels owned or operated by the State of Washington.

**(J) LAY STATUS**

Lay berth status is defined as a vessel waiting for a loading or discharge berth and may be granted upon written request to the Port of Longview prior to the vessel's arrival. Lay status will be granted on a berth availability basis and at the discretion of the Port. Such vessels will be charged fifty percent (50%) of the applicable dockage charge per twelve 12 hour period, minimum of 12 hours, rates as shown in Item 205. Lay status shall end two (2) hours prior to the first working shift.

Vessels requesting berth for long term lay status (5 or more days) only may be granted a lay berth on a berth availability basis and at the discretion of the Port. Such vessels will be charged twenty-five percent (25%) of the applicable dockage charge for 24 hour period or fraction thereof, as shown in Item 205. Contact the Director of Operations for availability.

Emergency berthing will be granted to vessels unable to transit the river due to draft or weather conditions. Such vessels will be charged fifty percent (50%) of the applicable dockage charge, as shown in Item 205.

All shifting and/or line handling expenses will be for the account of the vessel. The number of dockage periods billed, when lay status is involved, will not exceed the total number of dockage periods the vessel is on berth.

**(K) DOCKAGE RATES**

Rates are in U.S. dollars per 24 hour period unless otherwise provided.
